EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Peter N. Lalos (Reg. No. 19,789) on 03 March 2008.
3. The application has been amended as follows:
Claims 8-17 (Cancelled)

DETAILED ACTION

4. The amendment of 14 December 2007 has been noted and made of record.
5. Claims 1-7 and 18 have been presented for examination.
6. Claims 8-17 have been cancelled as per the Examiner's Amendment above.

Allowable Subject Matter

7. The following is an examiner's statement of reasons for allowance:

As the prior art has shown, it is known for a central server or warehouse to check whether a series of businesses are compliant with regulatory standards and supply that information to the business that requested the assurance analysis, essentially providing a two-party, self-assessment system. Independent claims 1 and 18 provide for a system and method that includes the above, but provides the assurance analysis information to a third party (the Applicant's claimed first party). Since no teachings or motivation can be found of providing the assurance analysis information to a third party upon request, claims 1-7 and 18 are therefore novel and non-obvious.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

10. The following patents are cited to further show the state of the art with respect to compliance assurance, such as:

United States Patent Application Publication No. 2003/0069983 A1 to Mukund, which is cited to show a web based compliance assurance system.

United States Patent Application Publication No. 2005/0107875 A1 to Seliger et al., which is cited to show if a business is compliant with HIPAA (see paragraph 0015).

United States Patent Application Publication No. 2002/0165790 A1 to Seliger et al., which is cited to show if a business is compliant with HIPAA (see paragraph 0015).

United States Patent No. 6,941,313 B2 to Seliger et al., which is cited to show if a business is compliant with HIPAA.
